# CLASS PROPHECY

## of 1943

May 1, 1953

Dear Diary:

Being the secretary to CHARLES PARR, engineer of Pan-American Petroleum Company, is a pretty exciting job. Today we started on an inspection tour of the branch offices in the United States. We took a plane from Buenos Aires to New York. Our pilot was LESTER PRIDDY and the co-pilot was RUTH HINSON. We had a very charming stewardess, JEAN BRANDON, who said that BETTY SHORT was also a stewardess on the Pan-American Airlines. We dined at the Waldorf-Astoria where NETTIE REVILL is the dietitian.

May 2, 1953

Dear Diary:

I began the morning by going to the Powder Puff Beauty Salon, where OLA MAE PERKINS is the hair dresser and LORENA SIMPSON is the make-up artist. Stopping by Macy's Department Store, I saw MARJORIE STANDLEE, who is the dress buyer for that store, and LOUISE HOUSE, one of their models. Macy's has just been remodeled, and the contracting was done by WOODY BARTON. All New York was talking about the concert to be held at Carnegie Hall, in which WALTON ROGERS is to be the featured violin soloist, and EDITH McKEE is to appear as the soprano soloist. Tonight we attended the "Ice-Capades of 1953." PEGGY BRENT, the world's champion figure skater, is the star. There we chanced to meet HAROLD GOODWIN, New York's famous playboy.

May 3, 1953

Dear Diary:

This morning we went from New York to Chicago. We had heard that KENNETH GRAVES had made quite a success as a doctor in the Michael Reese Hospital, so we dropped by to see if it were true. He and BERNEZ PATTERSON, a laboratory technician there, are both doing splendid work. Kenneth's wife, the former BONNIE DELL WHITLEY, is a teacher of mathematics at the Chicago University. Kenneth told us that VERA GRACE FRANKLIN is the Dean of Women at the University, and that Bernez's brother, JIM PATTERSON, had graduated from West Point and is now a Colonel in the Army.

May 5, 1953

Dear Diary:

Yesterday was taken up in traveling from Chicago to Los Angeles, so there was nothing interesting to tell. Upon arriving, we were met at the airport by JIMMY KLEIVER, the manager of the Interstate Theatres of California. We attended a book review at one of his theatres where HELGA JAHREN was giving a review of BOB MIMS' famous novel, "Five Years After the War." BOB LEONARD is a newsreel photographer at Paramount. He recently took pictures of JIMMY STOUT, the track star, at the Rose Bowl, and of BOB STOREY, who is now coaching at Notre Dame, and his famous team. We learned that Jimmy Stout and his wife, the former LOUISE SLOAN, were married in Hollywood at the Little Church Around the Corner by REV. R. A. BROOKS. Louise is teaching Spanish as well as being a housewife. L. F. MOORE is the owner of a large ranch near San Francisco.

May 7, 1953

Dear Diary:

From Los Angeles we came to Fort Worth, which was like coming home. We obtained a car for our sight-seeing tour from CHARLES CRAWFORD, the owner of Fort Worth's largest "rent-a-car" system. We visited Fort Worth's Consolidated Aircraft Corporation, whose manager is WILLIAM WELCH. He told us that BARBARA CROW was comfortably settled after making a fortune from her invention of a freckle cream. We dropped by to see RUBY CHELF, who said that she was now teaching home economics in one of the Fort Worth Public Schools. MELVILLE HARMON is teaching dramatics in the same school, and LAURA BELLE NOBLES is giving private violin lessons.

May 8, 1953

Dear Diary:

Still in Fort Worth, we attended a convention of the oil men of North and South America at the Blackstone Hotel. There we met CRANDER BEATY, vice-president of the Cosden Oil Co. and his secretary, MARY SLOAN. After the meeting we drove out to see RALPH WHEELER and the former EDITH FAYE LITTLE, who own a large farm located on top of "Tater Hill." We rode the subway from "Tater Hill" to Handley, which is managed by AVERIL HAWKINS. JUANITA ROBERSON is operating a chain of grocery stores. Things look different around the old home town.

May 10, 1953

Dear Diary:

We are now in New Orleans, preparing to take a boat back to Buenos Aires. While sight-seeing today, we visited the Naval Hospital. VERA JEAN JEFFRIES is an X-Ray specialist there. She said that RAYMOND MILLER is an electrical engineer at the New Orleans power plant. Verna also said that BILLIE JEAN SEARS and DORIS JACK were nurses in that hospital.

May 11, 1953

Dear Diary:

We passed through the Panama Canal today. Who should we see on the way through but CAPTAIN THOMAS BLACK-SHEAR. He is in charge of guarding the Canal.

May 13, 1953

Dear Diary:

We returned today to Buenos Aires after a very interesting and enjoyable trip... ANN TOMAMICHEL just dropped in to let us know that she is here studying the South American style of interior decoration... Back to the trip—it was certainly a surprise to us to see so many of our old classmates. Of all our annual inspection tours, this one has been the most enjoyable. Tomorrow will be a big day at the office, so I'll get some shut-eye.

## *An Outstanding Football Season*

On September 2, 1942, Coach Lowe told all the football boys, "Boys, you can have as good a football team as you want to make it." Anyone that kept up with the team knows, only too well, those words were "As right as a robbit." The first two or three weeks were hot and long, but the boys wanted to play football and they kept coming up to the school to practice and have a good football team.

The season started with only seven lettermen back. Things looked "pretty dismal," but the boys had that old Handley spirit and after about one week of school they played the strong Weatherford team and got beat by a score that made the boys start the next practice with determination to be district champions. Handley then swept through all their other games until misfortune broke through and one of the players broke his arm. The next game was with a strong contender for the title. With a substitute in the place of the injured regular, Birdville beat them, and made them more determined than ever to try to win a place in the district standing. On the day that Handley's small but fast team played Grapevine, Diamond Hill beat Birdville and left the championship to Handley.

Two weeks later Handley went to Nocona to play the bi-district game. Nocona outweighed our boys about 15 pounds, but our boys fought hard until

the gun sounded. They lost that game by 20 points, but they fought with all they had.

To all our football boys we wish a successful and happy future and we know they will keep their fond memories of this successful season near them always.

## *Basketball*

Due to the war the Handley High basketball team had a season of skip and jump games. Although they were skip and jump games the boys had fun by playing two service teams.

This season instead of a regular schedule a tournament was played and the round-ball boys brought home the first place trophy by beating the contender that was tied with Handley for the football championship, Birdville.

After two extra weeks of practice the basketball team went to T. C. U. to play for the bi-district title. For the first time in fourteen years Coach Lowe missed a Handley High School game due to illness. The boys went over there and got beat by a strong Gatesville team. This game ended another successful basketball season that will long be remembered by the Handley fans and team.
